

TO: All Illinois Health Connect Primary Care Providers

On January 29, 2009, HFS released a Provider Notice announcing physician rate increases for neonatal intensive care, pediatric specialty consultations and adult preventive care. That Provider Notice can be found posted on the HFS website at: <http://www.hfs.illinois.gov/physicians/> or on the Illinois Health Connect website at: <http://www.illinoishealthconnect.com/providerinfo.aspx> under the section for Important Notices.

Additionally, since the beginning of the Illinois Health Connect program, providers enrolled as IHC PCPs, other than FQHC and RHCs, automatically qualify for the enhanced Maternal and Child Health rates for care given to patients ages 0 through age 20 yrs. **As of Feb 1, 2009, these add-ons will apply to all patients regardless of age.**
